NoodleTools Quick Guide: Creating Citations

Step 1: Log-in to your HF gmail, click the apps menu, and then select “More”

Step 2: Select NoodleTools

Step 3: Select “New Project”
Step 4: Name your project, select citation style, and level (Junior is recommended), and then click “Submit” to begin.

Step 5: You will be taken to your project’s Dashboard where you can create a thesis statement, share with your teacher, create notecards, write your paper, and create citations.

Click on “Sources” to create citations.
Step 6: Select “Create New Citation” each time you create a citation

Step 7: Select the media type (if you used one of the links from our Library Database page, select “Database”)

![Image of Create new citation window]

Step 8: Select the source type

![Image of Create new citation source type]

Original Content in Database | Magazine | Television Program
---|---|---
Anthology/Collection | Newspaper | Video Clip (Online)
Book | Photo or Image (Born Digital) | Work of Visual Art
Film or Video Recording | Radio Program |
**Step 9:** Fill out all of the bibliographic information that you have for your source and anything you do not have leave blank (be sure to spell everything correctly or copy and paste the information from an online source)—you can select the name of the database you used from the “My library’s databases” drop down menu.

**Step 11:** You will then see your citation created in your references list. You can use the “Options” drop down menu to edit the citation, copy it, delete it, make an in-text reference or ask a question.

**Step 12:** To create a references page, select “Print/Export” and select “Print/Export” to Word or Google Docs.
